8- GENERAL RULES OF TRADING

- 8.1 All Orders placed by the Client shall be transmitted for execution to another party (Liquidity Provider) hence the Company shall not be executing your Orders as counterparty in the Transaction against you.
- 8.2 You acknowledge and agree that each Transaction conducted on the Trading Platform, including the placing of an Order, is comprised of first, an offer by you to us to complete a Transaction (whether such offer is to open a Transaction or close an open Transaction) at a certain price quoted on the Trading Platform, and our subsequent acceptance of your offer. A Transaction will be deemed to have been completed only when your offer has been received and accepted by us. Our acceptance of an offer will be evidenced by our confirmation of its terms to you and its completion.
- 8.3 We will be under no obligation to, but may in our absolute discretion, provide quotes for, or accept, execute or cancel, all or any part of a Transaction that you have requested through the Trading Platform without giving any reason. You may request to cancel or amend a Transaction at any time prior to our completing such a Transaction. We shall be entitled, but not obliged, to accept such a request in our sole discretion.
- 8.4 We reserve the right to void from the outset any Transaction containing or based on any Manifest Error. In the absence of our fraud or willful default, we will not be liable to you for any loss, cost, claim, demand or expense following any Manifest Error.
- 8.5 You acknowledge that all prices and quotes shown on the Trading Platform are indicative only of actual trading prices in Normal Market Size and are subject to constant change. The Company provides quotes by taking into account the Underlying Asset price, but this does not mean that these quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time.
- 8.6 You shall comply with any restrictions that we notify you from time to time with respect to your activities on the Trading Platform, including without limitation, the size of Transactions or other conditions that may apply to our quote. You acknowledge that we may offer to and

- impose on each user, in our sole discretion, different terms and restrictions with respect to their use of the Trading Platform.
- 8.7 You acknowledge that the Trading Platform is independent of any Underlying Markets and we are under no obligation to quote a particular price or follow the trading rules consistent with such Underlying Markets. You further acknowledge that the triggering of your Transaction is linked to the prices we quote on the Trading Platform, not the prices quoted on the relevant Underlying Markets. In determining whether the prices quoted on the Trading Platform reach or exceed the price accepted by us in a Transaction, we will be entitled (but not obliged), in our absolute discretion, to disregard any prices quoted by us during any pre-market, post market or intra-day auction periods in the relevant Underlying Markets, during any intraday or other period of suspension in the relevant Underlying Markets, or during any other period that in our reasonable opinion may give rise to short- term price spikes or other distortions. Our prices may differ from the current prices on the relevant Underlying Markets and you acknowledge that a Transaction may be triggered even though:
- a) An Underlying Market never traded at the level of your Transaction; or
 - b) The Underlying Market did trade at the level of your Transaction but for such a short period that it would have been impractical to execute an equivalent transaction on the Underlying Markets.
- 8.8 When you complete a Transaction on the Trading Platform, you agree that you are not dealing with a recognized exchange.
- 8.9 You acknowledge that any prices quoted on the Trading Platform are set by the Liquidity Provider in its reasonable discretion, taking into account a variety of factors including prevailing market conditions and trading demand on the Trading Platform. You undertake and agree not to use the prices quoted on the Trading Platform for any purpose other than for your own trading purpose, and you agree not to redistribute our prices to any other person whether such redistribution is for commercial or other purposes.
- 8.10 You acknowledge that each Transaction is made for a specified number of units that constitute the Underlying Asset. You may only complete Transactions on the Trading Platform for the minimum number of units as set forth on the Trading Platform as the “Unit Amount”, and in multiples of such “Unit Amount” up until the maximum amount permitted by the Trading Platform. You acknowledge and agree that we may set, in our sole and absolute discretion, the “Unit Amount” for each Underlying Asset.
- 8.11 Each Transaction opened by you, and any Transaction completed, will be binding on you notwithstanding that by opening the Transaction you may have exceeded any credit or other limit applicable to you or in respect of your dealings with us.
- 8.12 Subject to Paragraph 8.15 you may request a quote to open or close a Transaction for a particular Underlying Asset, at any time during the Trading Hours for such Underlying Asset. We will be under no obligation to but may, in our absolute discretion, provide a quote and accept and act on your offer to open or close a Transaction for an Underlying Asset outside of the Trading Hours of such Underlying Asset. In some cases, Transactions may only be traded

during the time when the relevant Underlying Market where the Underlying Asset traded is open. Trading Hours are displayed on the Trading Platform under the details link for each specific Underlying Asset. It is your responsibility to ensure you are aware of which Underlying Asset may be affected.

- 8.13 Without prejudice to any of our right hereunder, if, prior to the acceptance of your offer to open or close a Transaction, we become aware that any of the factors set out in Paragraph 8.14 have not been met, we reserve the right to reject your offer outright. If we have, nevertheless, already opened or closed a Transaction prior to becoming aware that a factor set out in Paragraph 8.14 has not been met, we may, in our absolute discretion, either treat such a Transaction as void from the outset or close it at our then prevailing price. However, we may, in our absolute discretion, allow you to open or, as the case may be, close the Transaction in which case you will be bound by the opening or closure of such Transaction, notwithstanding that the factors in Paragraph 8.14 were not satisfied.
- 8.14 The factors referred to in Paragraph 8.13 include the following:
- a) the quote must be obtained via the Trading Platform or by such other means as we may from time to time notify you;
 - b) your offer to open or close the Transaction must be given while the quote is still valid;
 - c) the quote must not contain a Manifest Error;
 - d) when you offer to open a Transaction, the number of units in respect of which the Transaction is to be opened must be neither smaller than the minimum unit amount specified on the Trading Platform for the Instrument, as applicable, from time to time, nor greater than the amount permitted in accordance with the terms of this Agreement;
 - e) when you offer to close part but not all of an open Transaction both the part of the Transaction that you offer to close and the part that would remain open if we accepted your offer must not be smaller than the minimum unit amount specified on the Trading Platform;
 - f) Force Majeure Event must not have occurred when you offer to open or close a Transaction;
 - g) an Event of Default must not have occurred in respect of you;
 - g) when you offer to open any Transaction, the opening of the Transaction must not result in your exceeding any initial or maintenance margin amount, credit or other limit placed on your dealings;
 - h) subject to Paragraph 8.12, your offer must be given to us during the Trading Hours for the applicable Underlying Asset in respect of which you offer to open or close the Transaction;
 - i) the internet connection or communications are not disrupted;
 - j) there is no request of regulatory or supervisory authorities of Saint Vincent & the Grenadines. or a court order to the contrary;
 - k) the legality or genuineness of the Order is under not under doubt;
 - l) there are Normal Market Conditions; and
 - m) any other reasonable factor that we, in our sole discretion, notify you from time to time.

- 8.15 If, before your offer to open or close a Transaction is accepted by us, our quote moves to your advantage (for example, if the price goes down as you buy, or the price goes up as you sell) you agree that we can (but do not have to) pass such price improvement on to you. The effect of such action being that the level at which you offer to open or close a Transaction will, upon acceptance by us, be altered to the more favorable price. You acknowledge that it is in your best interests for us to alter the level of your offer in the manner contemplated in this Paragraph and you agree that any offer altered in accordance with this Paragraph, once accepted by us, results in a fully binding agreement between us. Without derogating from the foregoing, you acknowledge that it is within our complete discretion as to when we will pass on a price improvement to you. You should also note that we will only pass on a price improvement within allowable limits.
- 8.16 The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. It is the Client's responsibility to monitor his position at all times.
- 8.17 Insolvency. If a Company, whose Underlying Asset forms the FX and CFD goes into insolvency or is otherwise dissolved, we shall close any or all of your open Transactions in FX and CFD of that Underlying Asset. The closing date shall be the date of insolvency.
- 8.18 **Abusive Trading**

8.20 The Company reserves the right to adjust swap charges on equities or indices CFDs for any Client's trading account and/or reverse any cumulative profits derived if it suspects that the particular Client is deliberately attempting to take advantage of any Corporate Actions (i.e. ex-dividend, share split etc.) affecting the price movement of the underlying assets.

9- ARBITRAGE

9.1 Internet, connectivity delays, and price feed errors sometimes create a situation where the price displayed on the Trading Platform does not accurately reflect the market rates. The concept of arbitrage and or taking advantage of these internet delays cannot exist in an OTC market where the Client is buying or selling directly from the principal. The Company does not permit the practice of arbitrage on the Trading Platform. Transactions that rely on price latency arbitrage opportunities may be revoked, without prior notice. 14- COPY TRADING

This paragraph sets out the specific terms that shall apply to the Client (in this Section, hereafter referred to as "You" or the "Follower") when using the Copy Trading functionality of the Company.

12.1 What is Copy Trading?

- 12.1.1 When using the Copy Trading Services, the Client agrees to use our Portfolio Management Services.
- 12.1.2 The Company provides the Client with the capacity to interact, follow and copy other traders and strategies by using the information of your Partner (in this Section hereafter referred to as "the Master" or "the Partner" or "Trader"). The information will include detailed account information, trading histories, risk profiles, and other information in relation to traders and/or strategies that may be useful to the Client when deciding whether to copy a Trader and/or strategy.
- 12.1.3 Copy Trading is a trading functionality which allows you to copy the accounts of other traders. You do this by copying a specific Tauro Markets trader account. By placing a Copy Order, you authorize the Company to automatically adjust your account to the account of the trader selected for copy without any prior approval. This will be done on a pro rata basis with the same products and the same trading instructions. For example, you may start copy trading, stop copy trading at any time you wish.
- 12.1.4 For a better understanding please read paragraph 14.2 - "Copy trading", and paragraph 14.7 - "Placing an order" for more information on how to place a copy trade on our platform.

- b) Copied trades in amounts lower than the minimum trade will not be opened.
- c) You will only copy newly opened trades from the point Copy Trading has been activated for you. Older trades will not be copied.
- d) The Copy Trader functionality may generate a materially different result than the trader that you copied. This is due to a number of different factors including starting account balance, minimum trade size, the investor's account settings, differences in spread, interest and investment price at time of investment, and also the difference in fees that may incurred.
- e) Following/copying the trading decisions of inexperienced and/or unprofessional traders; and/or f. Following/copying traders whose ultimate purpose or intention, or financial status may differ from yours.

12.5.2 The Company is unable to provide any guarantee as to the performance of any particular investment, account, portfolio or strategy.

12.5.3 Past performance, risk scores, statistics and any other information with respect to Tauro Markets Traders under our Copy Trader functionality, are not reliable indicators of future performance. The Company does not represent or guarantee that you will achieve profits or losses like those shown on the Tauro Markets trader or portfolio that you are copying. The Company also does not represent or guarantee that the risk score of a trader will accurately reflect the risk of their future performance.

12.6 Conflicts of interest

12.6.1 The Company is required to act in your best interest when providing our services. However, there may be instances where your interest conflicts with our interests, or with another client's interest. 12.7.1 Before you enter into the Copy Trade, you will need to deposit the amount of money you would like to invest in that copy trade and choose how you would like to copy. The Company will then automatically execute orders for you in the proportion or percentage you have chosen which means the Company will not obtain your confirmation before executing. The opening of such transactions shall not require any prior consultation, consent or approval. Trades below the minimum trade amount shall not be opened.

12.7.2 Copy Trading Restrictions: There are a number of order restrictions when Copy Trading, the Restrictions are often inherent to the system functionalities or for regulatory purposes. The Company shall not be held responsible nor liable for such restrictions and the resulting consequences. The Restrictions are the following:

- a) There may be rare cases where the connection of the system fails to copy the trade from Master to Follower accounts. In this event, the Company shall not be held responsible nor liable for the trade not copied. The Client acknowledges that the connection or system failure may affect all or part of the trades, the opening or closing time or the execution in any other way.
- b) The Master and Follower must both have the same account type, be on the same server and be under the same entity.
- c) The minimum and maximum amount that can be invested in any Tauro Markets trader that you copy, the minimum amount on any single copy trade, and the maximum number of traders that you can copy.

- d) The system will round to the closest size it can (i.e. if the equity of copier is 50% and the Master opened 0.03, the system cannot open 0.015, but will round the trade size to 0.01).
- f. If the Follower account (the copier) does not have enough 'free margin' to open the proportion, then the system will reject the deal.
- e) g. The Follower account may execute at a different price to the Master, depending on market volatility between the time the Master places a trade, and the system copies the trade.

12.7.3 When you are using our Copy Trading Services, you can choose to copy:

- only new trades which are opened after you begin to copy the Trader's account. This means that the Company will not copy any trades in the Trader's account which were entered into before this point.

12.7.4 If you are copying only new trades:

- a) The Company will attempt to open your positions at the same time as the trades being copied, we will open your position at the best available price at the time of copying; and
- b) all instructions and actions related to the copied trade will automatically be replicated in your account (subject to the trade size as explained above), including stop losses, take profits and the closing of trades. For example, if a trader that you are copying extends their stop loss by adding more funds to their account then your stop loss will be adjusted automatically to reflect this. However, your position amount will remain the same as its initial amount.

12.7.5 The Copy Trading Services has a number of other functionalities that the Company may make available to the Client from time to time. However, we may add, remove, or change the availability and features of these functionalities, at our discretion. This may impact how you can use the Copy Trading Services on our platform, for example whether you can copy all trades or only new trades of a trader.

12.7.6 If the Client follows a Performance Fee structure, the Client acknowledges that the account will be placed 'read only' from the date the Client starts copying. A read-only account will prevent the Client from accessing certain features of his/her Trading Account, including but not limited to placing / closing orders, withdrawing funds, during the copy time and until the Client presses the 'Stop button' via his/her personal dashboard, then the read only status shall be removed. 15- PORTFOLIO MANAGEMENT

15.1 General Provision

General terms and conditions apply to the overall business relationship between Tauro Markets (hereinafter: Company), and local or foreign legal and natural persons (hereinafter: Client), who have concluded a Portfolio Management Agreement (hereinafter: Agreement) with the Company. These General Terms supplement the Agreement and form its integral part. In the event of any discrepancy between these General Terms and the Agreement, the provisions of the Agreement shall prevail.

15.2 Portfolio Management Services

- 15.2.1 The Portfolio Management investment service is a specialised service of managing a portfolio of financial instruments for a particular Client, aimed at achieving the Client's investment objectives through an individual approach tailored to the Client's needs (hereinafter: Portfolio Management).

The portfolio of financial instruments (hereinafter: Portfolio) consists of all legally permissible financial instruments entered into the Portfolio by the Client or acquired in the process of Portfolio Management.

For the avoidance of doubt, the term "financial instruments" shall refer only to the instruments which are suitable for achieving the purpose of the Agreement and in which the Company is authorised to invest the Client's funds.

The Portfolio may consist of only such financial instruments which are owned exclusively by the Client. Financial instruments which are owned jointly or co-owned by more than one person may not be entered into the Portfolio. Also, it is impossible to arrange for joint management of a Portfolio consisting of financial instruments of multiple owners.

Portfolio Management includes, but not exclusively:

- a) purchase and sale of financial instruments traded on regulated markets or other trading venues,
- b) investment in other financial instruments,
- c) monitoring the status of the Client's Portfolio daily,
- d) reporting to the Client on the Portfolio value on quarterly basis and when vary with 10% (ten percent)
- e) reporting to the Client at the end of the calendar year regarding the results achieved that year and
- f) performing any other activities and tasks necessary for Portfolio Management.

If the portfolio value falls below the minimum initial payment amount due to a single or multiple pay-outs to the Client from the Portfolio in the course of the Portfolio Management service provision, the Company is entitled to cancel the Agreement. The Company shall perform the Portfolio Management activities in its own name and for the Client's account.

15.2.2 Fees

In respect of Portfolio Management activities, Tauro Markets shall charge and collect fees from the Client in accordance with internal acts governing fees and valuation.

15.2.3 Reporting

Reports, notifications and other information required by law or stipulated by the Agreement shall be delivered primarily to an email address. If this method of delivery is not permitted under the provisions of applicable regulations or if the Company is, for any reason, unable to perform the delivery by an e-mail address, the delivery will be made to the regular mailing address of the Client, or its registered office, of which the Company has been duly notified. The delivery of

reports, notices and other information shall be considered done if performed in one of the ways stated above.

The Company may deliver information to the Client via email, if the Client has submitted a valid email address to the Company.

The Company shall report to the Client on a permanent medium or paper or any other means enabling the Client to store the information addressed personally to the Client in such a manner which ensures access to this information for future use for a period of time appropriate in view of the purpose of such information and enables the stored information to be reproduced without being changed.

Documentation related to the Portfolio Management of each individual Client is stored in the electronic files of the Company and is available at the Client's request.

15.2.4 Tax Matters

Tax treatment of investments in financial instruments depends on a particular case and situation of each Client, and may be subject to legal and other changes, so it is advisable for Clients to seek the opinion of their tax advisors on settling their tax liabilities.

Neither the Company nor any third party keeping the assets in custody shall assume the obligation to settle the Client's tax liabilities or collect taxes, with the exception of the withholding tax, or tax refund in respect of the Client's investments under the Portfolio Management service.

15.2.5 Collective Account

The Client agrees for his/her/its Portfolio assets to be held in a collective account with a third party. The risk associated with the custody of the Client's assets in a collective account refers to the fact that only the Company has records of the actual balance of financial instruments in Client assets, while the third party with which a collective account is open only has records of the overall balance of the financial instruments in the collective account of all Clients, without the analytics of the assets of each individual Client.

The risk which may arise out of the custody of assets in collective third-party accounts is mitigated by regular and frequent reconciliation of internal records in which the analytics of the Client's assets are managed in such a way so as to allow a prompt discernment of Client assets from those of other clients and the assets of the Company at any given time, with the accounts and records of such third parties holding the respective assets in custody. The Company shall perform the said reconciliation on each change in the accounts, at least once a month, and keep respective records thereof.

The assets placed in custody of a custodian from a Member State of the European Union or third country banks (hereinafter: Foreign Custodian) may be deposited in a collective account in which, as a rule, assets of multiple clients are held in

custody; the Foreign Custodian shall keep no records of the assets of each individual client – beneficial owner of financial instruments. Such a method of asset custody may represent a risk for the Client since the division of assets by each individual client is not managed at the Foreign Custodian performing custody in a particular market but is performed in the ledgers of the third party with which the Company has established a contractual relationship. The risk which may arise out of such collective account custody is mitigated by regular and frequent collective account balance reconciliation with the account balances in third-party ledgers and by means of reports that the third party and the Foreign Custodian exchange on a regular basis.

15.2.6 Separate Portfolio Assets

Client assets shall not be included in the bankruptcy or liquidation estate of any third party with which the assets are put into custody or the Company, nor may they be subject to enforcement in respect of claims against the third party and/or the Company.

In the event of insolvency of the third party with which the portfolio assets are placed into custody, the Agreement between the Company and the custodian shall provide for the custodian to fully reimburse the Client if the Client's financial instruments cannot be recovered from third-party assets. The client shall not be entitled to reimbursement if the custodian places financial instruments in custody with the third party in accordance with the terms of the Agreement on Financial Instrument Custody or applicable legal regulations and subordinate legislation.

The Company shall not be liable to the Client for the insolvency of the third party if the liability of the third party has been contracted in accordance with the applicable legal provisions and subordinate legislation governing the protection of client assets.

The Company shall not be liable to the Client for the insolvency of the third party if it performed careful assessment of the third-party ability to regularly perform its asset custody obligations when entering into an agreement, and reassessed the choice of this third party, the arrangement entered into and the consequent risks within the time limit stipulated by law or subordinate legislation.

15.2.7 Costs of Client Asset Custody with Third Parties

Any costs of the Portfolio asset custody with third parties, brokerage fees and expenses, costs associated with the transactions of Portfolio asset purchase and sale, as well as all actual costs in respect of third-party services incurred by the Company when performing its contractual obligations, shall be paid by the Client. Where any part of the price payable by the Client in relation to the purchase, custody or sale of a financial instrument or transaction in a financial instrument, including all related fees, commission, duties and expenses, as well as all other dues payable via the Company, must be paid or is denominated in a foreign

currency, the Company shall provide an equivalent amount of foreign currency for the payment of such costs or prices from Portfolio assets.

Any other expenses which may be incurred by the purchase, custody or sale of Portfolio assets, including taxes or other levies, shall be paid by the Client in their entirety.

12.1 Protection of Personal Data

12.1.1 Processing of Personal Data

The Company shall treat the Client's information in accordance with its legal obligation to keep the confidentiality of information obtained in the process of dealing with Clients and is authorised to use such information in its business records, process it and enable its use and processing to legal persons within the Group of which the Company is a member, as well to the companies in the group to which a company holding the majority interest in the Company is affiliated and legal persons established with the aim of collecting and providing data on the total amount, types and timely performance of the obligations of the Clients with which the Company cooperates, ensuring confidential treatment of this data.

The Client agrees that the personal information provision was by no means conditional. The Company is authorised to provide personal information for use to third parties and other legal persons with which it has a business collaboration with the aim of exercising the rights and performing the obligations arising out of this service provision and for the purpose of related operations and performance of obligations arising out of the implementation of reporting on taxpayers of the United States of America under the Foreign Account

12.1.3 Non -Exclusivity Clause

The Client is aware that the Company is legally authorised to manage portfolios for the account of clients, and therefore agrees that the Company may also provide the Service within the scope of the Portfolio Management Agreement to other persons, without any restrictions.

The Client agrees that the Company and its related persons have no obligation whatsoever to buy or sell the same financial instruments for their Portfolio or manage the Portfolio in the same way as the Company does on behalf of its other Clients, and also that the Company and its related persons are not obliged to simultaneously buy or sell the same financial instruments on their own behalf in their operations.

The Client also agrees that, due to circumstances in the financial market, the Company may not always be able to buy or sell particular financial instruments at the same price for all its Portfolios and/or funds, and that the cost of such transactions may not always be the same but will depend on the quantity of traded financial instruments whose value and volume affect transaction costs. In such cases, the Company undertakes to take every effort possible not to discriminate against any of its Portfolios and/or funds and shall attempt to evenly distribute particular financial instruments between all Portfolios and/or funds, always putting the interests of Portfolios and/or funds ahead of their own, as well as ahead of the interests of its related persons.

Any amendment will supersede any previous agreement between us and will govern any transaction entered after, or outstanding on, the date the new version comes into effect.

16- AUTHORITY TO TRADE

16.1 You hereby authorize us to act on any instruction given or appearing to be given by you on the Trading Platform.

16.2 We shall be entitled, and you hereby authorize us, to rely upon any oral, electronic or written communication or instruction received from you. You agree that:

- b. following log-in to the Trading platform, nothing in this Paragraph will oblige us to verify the validity of each instruction or the signatures prior to every trade; and

- c. you shall bear the risk of all instructions, whether authorized, unauthorized, improper or fraudulent, even if it transpires such instructions were provided without your authority. You shall indemnify us against and save us harmless from all losses, costs, fees, damages, expenses, claims, suits, demands and liabilities whatsoever that we may suffer or incur or that may be brought against us, in any way relating to or arising out of our acting upon, delay in acting upon or refusal to act upon any such instructions or information.

16.3 Without derogating from the above, we will not be under any duty to act in accordance with any instruction if we reasonably believe that:

- (a) the person who provided such an instruction was acting in excess of his authority;
- (b) acting upon such an instruction would infringe any law, rule, regulation or the Client Agreement(s); or
- (c) in the event that we have accepted an offer to perform a Transaction that we later suspect falls within Paragraphs (a) and (b) hereunder, we may, in our absolute discretion, either close such a Transaction at the then prevailing price quoted on the Trading Platform or treat the Transaction as having been void from the outset.

Nothing in this Paragraph should be construed as an obligation on our part to inquire about the authority of any person who purports to represent you.

16.4 Any offer to open or close a Transaction (including an Order) must be made by you through the Trading Platform only. Written offers to open or close a Transaction, including offers sent by fax, email or text message will not be accepted.

specified by the Client in such an Order. In such an event, the Company will close the Transaction at the next best price.

16.9 With respect to a Close at Profit where the price for an Underlying Asset moves to the Client's advantage (for example, if the price goes down as the Client Buys or the price goes up as the Client Sells), the Client agrees that the Company can pass such price improvement on to the Client.

19- CHARGES

19.1 Taking into account the overarching obligation to act in accordance with the best interests of clients and the importance of informing clients of all costs and charges to be incurred, this information is available on the Company's website. The Client is solely responsible for requesting clarifications from the Company in relation to the above, if necessary.

19.2 By accepting the Client Agreement, the Client has read, understood, and accepted the information available on the Company's Website www.tauromarkets.com, in which all related spreads, charges, margin, interest and other rates are explained. The Company reserves the right to amend, from time to time, at its discretion any of the charges applicable to Client when trading financial instruments without prior written notice to the latter; such amendments will be available on the Company's Website which the Client must review during the period the Client is dealing with the Company and especially before and after placing any orders to the Company.

- 19.3 The Client should note that not all charges are represented in monetary terms; for example, charges may appear as a percentage of the value of a CFD; therefore, the Client needs to ensure that he/she understands the amount that the percentage amounts to.
- 19.4 The Company shall refer to any commission/inducement obtained, in consideration for the transmission of Clients Orders for execution to the Execution Venue and disclose information in relation to these commissions to the Client either on its website and/or by email as provided by Applicable Regulations. At least once a year, the Company must inform its clients on an individual basis about the actual amount of payments received.
- 19.5 The Client should note that any applicable charges will be instantly deducted from his/her Trading Account.
- 19.6 Spread(s) and Commission(s)
The applicable spread(s) and commission(s) charged when conducting a trade are available online on the Company's website. The Company reserves the right to amend swaps fees from time to time in its sole and absolute discretion without notice. The Client(s) hereby accept(s) that swaps fees amounts shall apply and become enforceable as soon as these become publicly accessible on Company's website.
- 19.7 In respect of any transactions to be affected OTC, the Company shall be entitled to quote prices at which the Execution Venue is prepared to trade with the Client. Save where the Company exercises any rights it may have under the Terms to close a Contract, it is the Client's responsibility to decide whether or not it wishes to enter into a Contract at such prices.
- 19.8 The information about all costs and charges will be aggregated to allow the client to understand the overall cost as well as the cumulative effect on return of the investment, and where the client so requests, an itemized breakdown will be provided.
- 19.9 The Company does not accept or retain any fees and/or non-monetary benefits.
- 19.10 Other charges: the Company reserves the right to charge extra service fees for any documents requested by the Client for his/her personal use such as but not limited to acknowledgement letters, account confirmation letters for tax purposes or communication retrieval other than already included in the dedicated section for data transfer on the Client's dashboard. The Company will communicate the fees to the Client upon receiving a request for any of the requested documentation.
- 19.11 The fees and charges are denoted in Euro. The Euro amount or trading account currency equivalent will be deducted from the Client's account balance upon delivering the requested document.

20- MARGIN CALLS

- 20.1 The Client shall pay to the Execution Venue on demand:
- Such sums of money by way of deposits or as initial or variation Margin as the Company may from time to time require;
 - Any amount necessary for maintaining a positive balance in any and all Accounts.

- 20.2 In the event that a negative balance occurs in the Client's Trading Account due to Stop Out, the Company will make a relevant adjustment of the full negative amount so as to the Client not to suffer the loss as per our Negative Balance Policy. If no abuse was done or practiced from the client side.
- A margin close out rule on a per account basis standardized to the percentage of margin (at 30% of minimum required margin) at which we close out one or more retail client's open CFDs.
- 20.3 Before you are allowed to enter into a Transaction, you will generally be required to deposit money with us (known as "Margin"). This Margin will be calculated as a proportion of the overall Transaction value. This means that you will be using 'leverage' or 'gearing' and this can work for or against you. For example, a small price movement in your favor can result in a high return on the Margin placed for the CFD, but a small price movement against you may result in substantial losses.
- 20.4 We are not obliged to make a Margin Call and you are responsible for maintaining appropriate arrangements with us at all times for the communication of Margin Calls. Any open position is deemed to be at risk of being closed as soon as the account enters into a margin call. It is your responsibility to monitor, at all times, the funds available in your Trading Account to cover any Margin required as a result of your trading decisions.
- 20.5 The Company may offer Margin Call service, which will be triggered if the margin level falls to 100% of the required margin. In this case the Client will receive a notification that the margin level has dropped to 100% and the client should monitor the account closely. It is to be mentioned that connection problems or other technical issues may cause the Margin Call to be delayed. Therefore, as explained in 19.4 the Client should not rely on the Margin Call service, monitor the accounts and margin levels at all times and is solely responsible for ensuring the necessary funds are available on the trading account to maintain any open positions.
- 20.6 In order to open a Transaction for an Underlying Asset, you undertake to provide the Initial Margin in your Trading Account. In order to keep a Transaction open, you undertake to ensure that the amount in your Trading Account exceeds the Maintenance Margin. You acknowledge that the Margin for each Underlying Asset differs and may be changed by us in our sole discretion from time to time.
- 20.7 Deposits into your Trading Account can be made by wire transfer or another method of payment, to a bank account, or other location, as we may notify you from time to time. Based on the amount of money you have in your Trading Account, we retain the right to limit the amount and total number of open Transactions that you may wish to open or currently maintain on the Trading Platform. It is understood that each different type of Trading Account offered by us from time to time may have different Margin Requirements.

21- PAYMENTS AND SET-OFF IN THE TRADING ACCOUNT

- 21.1 It is possible that other costs, including taxes, relating to transactions carried out on the Trading Platform may arise for which you are liable, and which are neither paid via us nor imposed by us. Without derogating from your sole and entire responsibility to account for tax due, you agree that we may deduct tax, as may be required by the applicable law, with respect to your trading activity on the Trading Platform. You are aware that we have a right of set-off against any amounts in your Trading Account with respect to such tax deductions, and you hereby authorize us to withdraw amounts from your Trading Account with which to pay such taxes. You shall have no claim against us with regard to such deductions. You further agree that such deductions do not derogate from our rights to make Margin Calls under this Agreement.
- 21.2 The Company retains a right of set off and may, at its discretion, from time to time and with the Client's authorization, set-off any amounts held on behalf and/or to the credit of the Client against the Client's obligation to the Company.

 - Open or close positions; and/or
 - Make a deposit into the client's trading account, the account shall be classified by the Company as an Active Account.

 - the minimum amount charged being € 25 (Twenty-Five Euros) or trading account currency equivalent, and
 - the maximum amount charged being € 49,90 (Forty-Nine Euros and Ninety Cents) or trading account currency equivalent from the funds held in the account balance, until the account balance is € 0 (zero) or trading account currency equivalent, relating to the maintenance/administration of such Inactive Accounts.
- 22.4 An account with a positive balance is considered to be Dormant if, during a 6-month period no transactions have been carried out in relation to the account by or on the instructions of the holder of the account.

- 22.5 For any of the Dormant accounts that have had the status for a period of 5 years with a positive account balance, and you fail to be contacted after we take reasonable steps to do so, we will have the right to cease treating those funds as Client Funds.
- 22.6 For re-activation of Inactive/Dormant Accounts, the client must place a trade, open or close a position and/ or make a deposit into the Client's trading account. The client's Dormant Account will then be reactivated (subject to, if required, up to date Know Your Client documentation to be provided to the Company by the Client) and become an Active Account. In such cases where an Inactive/Dormant Account has been re-activated the Company will cease to deduct the Dormant Account administration fee but will not refund any Dormant Account administration fees deducted from this/these account(s) previously.
- 22.7 The deduction will take place during the first week of every month (alternatively at a later stage), until the balance of the Dormant Account has reached € 0 (zero) or trading account currency equivalent.

23- CHARGEBACK POLICY

- 23.1 The Company reserves the right to charge a fee "chargeback fee" if a chargeback is placed with your credit card company (either intentionally or unintentionally) for any deposit made to your account. The chargeback fee will be comprised of the "administration fee" of €60.00 (sixty Euros) to cover all further investigation expenses. In case of pre-arbitration, additional fees may apply from the card processor. This fee will be used to cover all investigative expenses to prove that the deposit was made by you upon receiving the chargeback from our merchant provider. The fee will be deducted from the Client's account balance if available.
- 23.2 All fraud including credit card fraud will not be accepted by the company and as such will be fully investigated and pursued under the law to its fullest extent. Any losses resulting on our behalf will be fully pursued in a civil lawsuit to claim back any losses incurred covering all business, legal fees, research costs, human resource and loss of income. If we receive, for any reason, a dispute, claim, and/or chargeback from your credit card issuer or any other payment method you use, you acknowledge that we have the right to take any of the following measures, depending on each case:

- e. In addition, we will exercise our right to block your online Trading Account and terminate your account with us. Consequently, any profits or revenues may be seized, and we reserve the right to inform any third party. We are continually developing tools to monitor any fraudulent activity and any cases from such activity will be decided on by ourselves and any decision made shall be final and nonnegotiable.
- f. We reserve the right to deduct the disputed amount from your Trading Account until any investigation from our side is completed. In case the balance in your account is smaller than the disputed amount, then:
 - I. the difference will be added as chargeback deposit and the full amount will be deducted as chargeback reimbursement, or
 - II. the difference will be deducted from the other account(s) you have with us (if applicable). The deducted amount will be reserved by us until the conclusive resolution of the chargeback request.

23.3 Fraud is taken very seriously by our Company, all IP addresses are monitored and logged, and any fraudulent chargebacks will be investigated fully under the law.

25- TRADING IN CRYPTOCURRENCIES

- 25.1 In the case of trading in CFDs where the underlying asset is a Cryptocurrency, the Client should take into consideration that Cryptocurrencies are traded on non-regulated decentralized digital exchanges. Hence, the price formation and the price movements of the Cryptocurrencies depend solely on the internal rules of the particular digital exchange, which may be subject to change at any point in time and without notice which often leads to a very high intra-day volatility in the prices.
- 25.2 In the case of trading CFDs in Cryptocurrencies the Client accept a significantly higher risk of loss of the invested capital which may occur within a very short time frame as a result of unanticipated adverse price movements of the Cryptocurrencies.
- 25.3 The Company's pricing data and market on the Cryptocurrencies originated from the digital decentralized exchanges the Cryptocurrencies are traded on. Considering that such exchanges are not regulated, the market data and price feed information provided by such exchanges may be subject to the internal rules and practices of such exchanges which may significantly differ from the rules and practices observed by the regulated exchanges. Therefore, the pricing formation rules of the Cryptocurrency exchanges are not subject to any regulatory supervision and may be changed at the relevant digital exchange's discretion at

any time. Also, such digital exchanges may introduce trading suspensions or take other actions that may result in suspension or cessation of trading on such exchanges or the price and market data feed becoming unavailable to us.

- 25.4 The above factors could result in a material adverse effect on Clients' open positions, including the loss of all of Clients' invested capital. Where a temporary or permanent disruption to or cessation of trading occurs on any digital exchange from which we derive our price feeds for the relevant Cryptocurrency, Clients' positions in such Cryptocurrency will be priced at the last available price for the relevant Cryptocurrency, and Clients' may be unable to close or liquidate their position or withdraw any funds related to such position until the trading on the relevant digital exchange resumes (if at all). The Client accepts that where trading resumes again at either the relevant initial digital exchange or on any successor exchange thereof, there may be significant price differential (price gapping) which may impact the value of Clients' CFD positions in the relevant Cryptocurrencies and result in significant gains or losses. Where trading does not resume Clients', entire investment will potentially be lost altogether.
- 25.5 The Client agrees and accepts that he has been informed by the Company of and understands this particular risk, and that shall take that risk into account when taking any investment decisions in respect of trading CFDs in Cryptocurrencies. In some regulated equity markets, it could be difficult to take a Short Position. For instance, if the underlying equity related Financial Instrument is in short capitalization or is illiquid, or where an Exchange or regulator has prohibited short trading.
